

International Journal of Machine Learning and Computing

CONTENTS

Volume 10, Number 3, May 2020

• **Data Model and Intelligent Computing**

Sampling Non-relevant Documents of Training Sets for Learning-to-Rank Algorithms406
Muhammad Ibrahim

Scalable Pattern Recognition in Financial Time Series Data with Double-Cycled Value Based Data Representation
.....416
Kwan-Hua Sim, Kwan-Yong Sim, and Valliappan Raman

The Discussion of Kano Two-Dimensional Quality Mode on the Essential Service Quality Attributes of Taiwan Power Company.....423
Chang-Hsien Hsu, Chiu-Yu Hung, Yu-Hsuan Lan, and Zheng-Ji Chen

A Powerful Transferability Adversarial Examples Generation Method Based on Nesterov Momentum Optimization
.....431
Yunfang Chen, Qiangchun Liu, and Wei Zhang

Collaborative Item Recommendations Based on Friendship Strength in Social Network.....437
N. Jamil, S. A. Mohd Noah, and M. Mohd

• **Intelligent Algorithm Design and Optimization**

Decision Tree Algorithm with Class Overlapping-Balancing Entropy for Class Imbalanced Problem.....444
Artit Sagoolmuang and Krung Sinapiromsaran

Application of K-Means Clustering to Identify Similar Gene Expression Patterns during Erythroid Development
.....452
Heba Saadeh, Reem Q. Al Fayez, and Basima Elshqeirat

Opposition-Based Enhanced Grey Wolf Optimization Algorithm for Feature Selection in Breast Density Classification458
Rahul Hans and Harjot Kaur

A Real-Time Risk Assessment for Information System with CICIDS2017 Dataset Using Machine Learning465
Preecha Pangsuban, Prachyanun Nilsook, and Panita Wannapiroon

An Optimized GPU-Accelerated Route Planning of Multi-UAV Systems Using Simulated Annealing471
Seval Capraz, Halil Azyikmis, and Adnan Ozsoy

A Standardized Bare Bones Particle Swarm Optimization Algorithm for Traveling Salesman Problem477
Jia Guo and Yuji Sato

• **Image Processing and Machine Vision**

Iris Biometrics for Secure Authentication.....482

Abdullah Ali Alshehri, Tyler Daws, and Soundararajan Ezekiel

Particle Filter for Hector SLAM to Improve the Performance of Robot Positioning by Image Processing Based490
W. Sirigool and R. Kesvarakul

Obstacle Height Estimation Related to Suitable Viewpoint while Waiting for the Bus Using Color Moment
Technique.....495
Watcharin Tangsuksant and Chikamune Wada

Supervoxel Clustering with a Novel 3D Descriptor for Brain Tissue Segmentation.....501
Yongfan Liu, Sen Du, and Youyong Kong
