

International Journal of Machine Learning and Computing

CONTENTS

Volume 11, Number 5, September 2021

- **Artificial Intelligence and Intelligent Algorithms**

Optimized Artificial Bee Colony Algorithm for Web Service Composition Problem327
Shudong Zhang, Yaru Shao, and Lijuan Zhou

Comparison of Chi-Square Test and Representative Decision Tree in Features that Influence Vehicle Style.....333
Hung-Hsiang Wang and Chih-Ping Chen

Implicit Adaptation to Low Rank Structure in Online Learning339
Weiqi Yang and Michael Spece

Facial Expression Recognition Using Multi-deep Convolutional Neural Network Encoders with Support Vector Machines.....345
Tran Ngoc Dong, Le Van, and Pham The Bao

Applications of Memristors in Neural Networks and Neuromorphic Computing: A Review350
Ye-Guo Wang

- **Speech Recognition and Analysis**

Noise Reduction Using Neural Lateral Inhibition for Speech Enhancement.....357
Yannan Xing, Weijie Ke, Gaetano Di Caterina, and John Soraghan

Effect of Training Data Selection for Speech Recognition of Emotional Speech362
Yusuke Yamada, Yuya Chiba, Takashi Nose, and Akinori Ito

Using Word Embeddings in Turkish Part of Speech Tagging367
Şevket Can, Bahar Karaoğlan, Tarık Kışla, and Senem Kumova Metin
