

# International Journal of Machine Learning and Computing

## CONTENTS

---

---

### Volume 6, Number 5, October 2016

- **Neural Networks and Machine Learning**

- Supervised Learning Methods of Bilinear Neural Network Systems Using Discrete Data.....235  
*Toshio Ito*
- On the Optimal Node Ratio between Hidden Layers: A Probabilistic Study.....241  
*Alan J. Thomas, Simon D. Walters, Saeed Malekshahi Gheytaasi, Robert E. Morgan, and Miltos Petridis*
- Explaining Potential Risks in Traffic Scenes by Combining Logical Inference and Physical Simulation.....248  
*Ryo Takahashi, Naoya Inoue, Yasutaka Kuriya, Sosuke Kobayashi, and Kentaro Inui*
- Anomaly Detection via Unsupervised Learning for Tool Breakage Monitoring.....256  
*Chengming Shi, Bo Luo, Hongqi Li, Bin Li, Xinyong Mao, and Fangyu Peng*
