

# International Journal of Machine Learning and Computing

## CONTENTS

---

---

### Volume 9, Number 1, February 2019

#### • **Neural Network Modeling and Calculation**

Airplane Vortex Encounters Identification Using Multilayer Feed-Forward Neural Networks .....1  
*Faouzi Bouslama and Aziz Al-Mahadin*

A Deep Neural Network Model for the Task of Named Entity Recognition .....8  
*The Anh Le and Mikhail S. Burtsev*

Facial Emotion Recognition from Videos Using Deep Convolutional Neural Networks.....14  
*Wisal Hashim Abdulsalam, Rafah Shihab Alhamdani, and Mohammed Najm Abdullah*

Speaker Verification Using Deep Neural Networks: A Review .....20  
*Amna Irum and Ahmad Salman*

#### • **Image Processing and Application**

Towards an Automatic Plant Identification System without Dedicated Dataset.....26  
*Thi Thanh-Nhan Nguyen, Thi-Lan Le, Hai Vu, and Van-Sam Hoang*

Detection and Tracking of Faces in 3D Using a Stereo Camera Arrangements.....35  
*Faleh AlQahtani, Jasmine Banks, Vinod Chandran, and Jinglan Zhang*

Combining Pose-Invariant Kinematic Features and Object Context Features for RGB-D Action Recognition.....44  
*Manoj Ramanathan, Jaroslaw Kochanowicz, and Nadia Magnenat Thalmann*

An Online Integrated Fingerprint Image System.....51  
*Ching-Yu Huang, Limin Liu, and Yui-Liang Chen*

Laplacian Edge Detection Algorithm for Road Signal Images and FPGA Implementation .....57  
*Issam Bouganssa, Mohamed Sbihi, and Mounia Zaim*

Robust Harris Detector Corresponding and Calculates the Projection Error Using the Modification of the Weighting Function .....62  
*A. Chater and A. Lasfar*

#### • **Computer and Information Engineering**

Application of Kansei Engineering and Data Mining in Developing an Ingenious Product Co-design System .....67  
*Kittipong Sakornsathien, Sukree Sinthupinyo, and Pongpun Anuntavoranich*

Recursive General Secret Sharing Scheme Based on Authorized Subsets .....75  
*Utako Itoh and Kouya Tochikubo*

Prediction of 6 Months Smoking Cessation Program among Women in Korea .....83  
*Khishigsuren Davagdorj, Seon Hwa Yu, So Young Kim, Pham Van Huy, Jong Hyock Park, and Keun Ho*

*Ryu*

Application of Artificial Intelligent in the Prediction of Consumer Behavior from Facebook Posts Analysis.....	91
<i>Pornpimon Kachamas, Suphamongkol Akkaradamrongrat, Sukree Sinthupinyo, and Achara Chandrachai</i>	
Energy Efficiency in Cloud Computing.....	98
<i>Mohamed Deiab, Deena El-Menshawy, Salma El-Abd, Ahmad Mostafa, and M. Samir Abou El-Seoud</i>	
FICOBU: Filipino WordNet Construction Using Decision Tree and Language Modeling .....	103
<i>Ria Ambrocio Sagum, Aldrin D. Ramos, and Monique T. Llanes</i>
